### Camino - 20 Years of Cultural Enrichment in Reunified Europe

42 min · 🌐

On Monday, June 10, University of Latvia (LU) in cooperation with six other European universities presented the cultural cooperation platform "[universities4culture.eu](https://universities4culture.eu)". 🤗

At the virtual presentation event, attended by 149 interested parties from various European countries, the partners of the "CAMINO Project" presented the functionality and content of the platform.

Currently, the platform unites seven "CAMINO Project" partner universities [Latvijas Universitāte](#) [Vilniaus universitetas / Vilnius University](#) [Ludovika - UPS Univerzita](#) [Jana Evangelisty Purkyně v Ústí nad Labem](#) - [UJEP Uniwersytet Opolski](#) [Univerzita Komenského v Bratislave](#) [Tartu Ülikooli muuseum](#)

Yet, during the presentation of the platform, the administrative manager of the "CAMINO Project" Gundega Vizule, invited other universities and cultural institutions to cooperate as well: "We believe that this platform will grow and become more and more useful, inspiring new collaborations, joint projects, as well as encouraging us to attend each other's events and exchange experiences. The possibilities are wide! Now it's all up to us - let's make the most of this platform and contribute to its content!" 🤝🚀

The online platform was created within the framework of the project "Twenty Years of Cultural Enrichment in Reunified Europe," or "CAMINO Project" for short, funded by European Union. ✨
